

Our Services

NMS Mechanical Contractors provide a full range of services from maintenance contracts and design to installation and commissioning including renewable energy solutions. With our own internal quantity surveyor and in-house design team, we can deliver a complete package from design stage to handover. Alternatively, we can work with other providers to meet our clients requirements.

Company Profile

- Industrial
- Commercial
- Residential
- Sustainable
- Renewable Energy

Welcome

NMS Mechanical Contractors has been providing quality heating, plumbing and ventilation installations and servicing, to a wide range of clients in Ireland and beyond since its inception in 1999. Owned and managed by Alan Filan, the company has gone from strength to strength culminating in the expansion of the business to deal with large residential, commercial, medical, industrial and domestic projects for some of Ireland and the UK's largest developers.

Whilst the expansion of the business has been quite spectacular, our ethos, attention to detail, quality of workmanship and customer focus has remained unaltered. Our mission is to fulfil whilst at the same time exceed our clients expectations. To this end, we are continuously upgrading and improving the skills of our workforce, systems and service offering.

All our staff including site staff are appropriately trained and accredited to the highest safety management standards. No staff including any sub-contractors are permitted on site without the relevant training certificate or appropriate health and safety equipment.

We also firmly believe in protecting the environment and have in place an environmental policy which includes a proactive waste management and environmental hazards strategy. All our staff and sub-contracting staff are aware of this policy and work tirelessly to ensure this is achieved 100% of the time.

Our company is RGII and OFTEC approved, SEI affiliated and ISO 9001:2000 certified. To our wide customer base this provides peace of mind, reductions in their costs and time and the knowledge they are dealing with a professional and fully compliant company.

Alan Filan
Managing Director

Our Work

We have been involved in a host of large industrial, medical, retail, commercial and residential projects. These projects have seen us work with some of the UK and Ireland's largest development companies such as John Sisk & Sons, Mercury Engineering and PJ Carey, to name just a few.

What Our Clients Say About Us...

"All their staff on site are competent and work to an extremely high standard. They adhere to site safety rules at all times and work well with all the other trades"

Derek Stepson, Director, Emerge Properties

"NMS Mechanical Contractors have worked excellently with us at our Cherry Orchard Development and are viewed as valued team players"

Sarah Casey, Quantity Surveyor, John Sisk & Son

"We found NMS Mechanical Contractors to be a professional company in both their conduct and manner on and off site. We have no hesitation in working with them in the future"

Robert Maguire, Financial Property Officer, Walsh Maguire & Co. Ltd.

"NMS Mechanical Contractors provided us with a quality and proficient service throughout our contracts with them.

I would recommend them to any developer as the mechanical contractor of choice"

Donal Caulfield, Director, LM Developments

Old Quarry
