

Don't get caught out by the cold this winter. Save yourself time, money & hassle by servicing your boiler now!

Boiler manufacturers recommend that a boiler is serviced annually.

Call us by October 31st 2009
and we will give you **10%**
off your fully certified
boiler service*.

A boiler which is regularly serviced

- *Is less likely to breakdown when needed*
- *Operates more efficiently which saves money*
- *Is more environmentally friendly*
- *Prolongs and enhances the lifetime of a boiler*

Our thorough and fully certified boiler service involves a six stage process.
We will:

- STAGE 1** Check your boiler is operating to its maximum efficiency
- STAGE 2** Clean out the combustion chamber units to prevent any clogging over winter
- STAGE 3** Check on the gas standing and working pressure
- STAGE 4** Clean the spark electrodes as well as complete all standard electrical checks
- STAGE 5** Complete an electronic flue analysis to check the carbon monoxide levels of your boiler are within the manufacturers recommendations and adjustment if required. A print out will be given.
- STAGE 6** Issue a Bord Gais Service Certificate to confirm that your boiler has been serviced and tested according to Bord Gais best practices.

Alan Filan
Managing Director

* Note: Our regular certified boiler service is €90 including VAT. Have your boiler serviced and certified before October 31st, 2009 and pay only €81. Parts which may be required will be charged as an extra.
